

東京都周産期母子医療センター
令和2年度 患者取扱実績【産科】（4月～3月分）（速報値）

産科実績（令和2年度）総括表 4月～3月

Table showing facility types, total counts, and regional breakdowns for maternal transport and childbirth cases.

Large table with columns for years (Heisei 10-30 and Reiwa 1) and rows for various categories like childbirth types, maternal transport, and emergency cases.

Summary table on the right side showing '再掲' (repeated) data for Reiwa 1 and Reiwa 2.

Extensive table detailing patient handling performance by facility name, including request reception, emergency cases, and transfer rates across various medical centers.
