

## June is “Mosquito Control and Prevention Month”

<https://www.metro.tokyo.lg.jp/tosei/hodohappyo/press/2024/05/23/26.html>

### 1. Information dissemination to prevent the spread of mosquitoes (June 1 - 30)

- (1) Displaying of posters
- (2) Airing of educational videos (Video ads on YouTube)  
[https://tokyodouga.jp/\\_nbaawlbhmg.html](https://tokyodouga.jp/_nbaawlbhmg.html)
- (3) Mobilization of ad-wrapped buses
- (4) Holding of workshops for Tokyo Metropolitan Area residents and facility managers (June 11, Tuesday)
- (5) Distribution of leaflets and pamphlets

### 2. Investigation of emergence of virus-carrying mosquitoes (surveillance of infectious disease-carrying mosquitoes)

### 3. Prevention of spread of infection in the event of confirmed cases

- (1) Establishment of testing system
- (2) Disclosure of information on high-risk areas on the website in the event of confirmed cases, etc.
