

- After COVID-19 transitioned to a Class 5 Infectious Disease, the conference was set up on May 8, 2023, to **be ready for all infectious diseases**, including unknown diseases, **at all times** and review and take necessary actions promptly.

Calling conferences

- When consideration of the transmission situation is needed
- When review of expanding, etc. of the healthcare system is needed
- When a new infectious disease outbreak is confirmed
- Any other cases the chair deems necessary

etc.

Items to review

Review the following items related to all infectious diseases:

- Items related to the **transmission of infectious diseases**
- Items related to **countermeasures to stop the spread of infectious diseases**
- Items related to **public health, healthcare system, etc.**
- Items related to **public communication**
- Other

Direction from FY 2024 (Draft)

Continue to be held as necessary in response to the situation of various infectious diseases in Tokyo

【Concrete examples of reasons to be held】

- When consideration of the influenza, COVID-19, etc. transmission situation is needed
- When calling and encouraging prevention measures to Tokyo citizens in response to the annual outbreak season (summer, winter)
- When an outbreak of an infectious disease of international concern happens overseas and cases are confirmed in Japan, etc.
